Dear Mr Edge

Re: Support for Langport Transport Group Proposals

Mendip District Council would like to reaffirm its support for the proposals to open a railway station in the Langport/Somerton area.

The provision of greater access to public transport in this part of Somerset is vital for the local economy and for the wellbeing of residents in the area.

Our own research underlines the extensive distances those living in the Mendip District area have to travel to access good rail links. This poor provision leads to extensive car use, with its associated pollutants and carbon emissions, also causing parking issues in key towns that they are trying to access.

If the Council can support you further in your efforts to get this project delivered please do not hesitate to contact us.

Yours sincerely

Tracy Aarons
Deputy Chief Executive
Mendip District Council
